

FEATURED ALUM-A-LIFT ATEX DRUM TIPPER WITH STAINLESS STEEL FUNNEL

PROJECT 29612

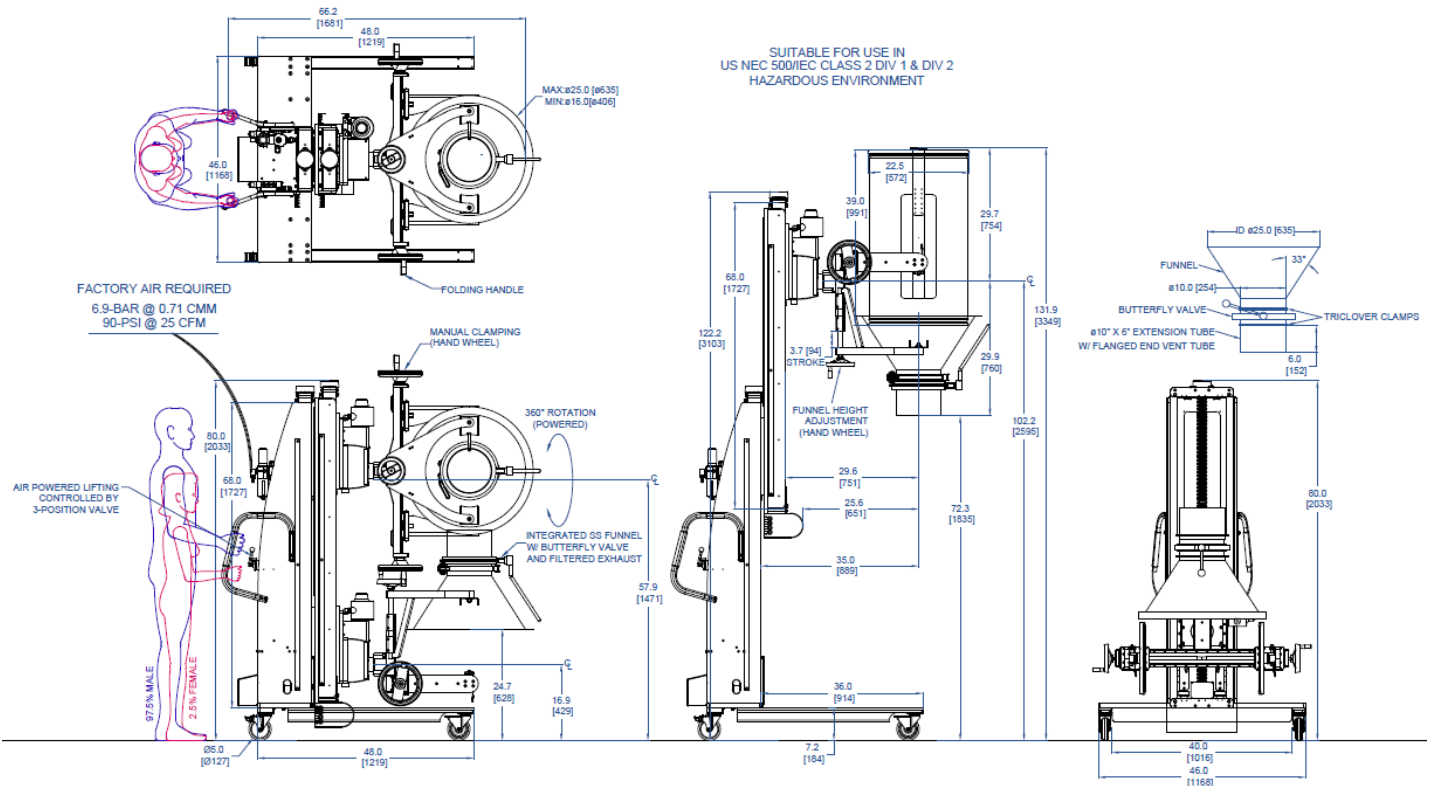

MODEL A1500CSIST-68/68

FEATURING Integrated adjustable height funnel, manual clamp, powered side-to-side rotation, dual lifting stages, hazardous environment rating

HANDLING 331 lb [150 kg] Drums

DETAILS Continuous manufacturing of pharmaceutical tablets requires large volumes of powdered and granulated materials to be loaded into Intermediate bulk containers (IBC). This Alum-a-Lift is configured to handle and dump different size drums into an IBC in a Class 2 Div 1 Hazardous Environment. An intrinsically safe pneumatic ballscrew drive powers the lift using a factory compressed air supply. The dual lifting stages allow for overhead lifting while retaining the ability to pass through doorways.
