

FEATURED ALUM-A-LIFT
SELF-PROPELLED ROLL HANDLING LIFT WITH CORE GRIPPER

PROJECT
30186

MODEL A800CRCSPD-72

FEATURING Expanding Mandrel, Steerable Powered Drive, Class 1000 Cleanroom Capability

HANDLING 500 lb [227kg] Rolls

DETAILS Like every Alum-a-Lift, this roll handling system has been customized to be a perfect match for its intended function. Utilizing a powered gripper and interchangeable rubber tips, this unit can lift and rotate heavy rolls for installation into coating equipment. It features short legs to pick from floor-bound pallets, counterweight to prevent tip-over, and a powered drive wheel making is easy to maneuver. It even features a sealed lifting screw and nickel-plated finish instead of paint for class 1000 (ISO 6) clean room compatibility.
